RECOMENDACIONES DE DIVERSIFICACION

Reiteramos en nuestras principales documentaciones que periódicamente actualizamos, especialmente en la valoración del perfil de inversión unas recomendaciones básicas que, no por elementales, conviene tener siempre presentes:

- La elección de una buena entidad de custodia que ofrezca una amplia diversificación de productos financieros, preferiblemente ajenos a la entidad.
- Que los fondos de inversión seleccionados sean de la clase de acumulación más barata posible, considerando como mejor la institucional que sin embargo suele tener condiciones muy exigentes de contratación.
- Que estén exentos de comisión de suscripción y reembolso y dispongan de patrimonio suficientemente alto como para no tomar una parte significativa.
- Debe leer siempre el Folleto informativo de la Gestora del fondo antes de suscribir participaciones del mismo.
- Es más eficiente el uso de productos nominados en la moneda más habitual del inversor y que tengan el riesgo de divisa cubierto.
- En cuanto a los fondos de carácter inmobiliario los asimilamos en el segmento de renta fija a largo plazo por su similares características de volatilidad - riesgo.
- La ayuda de un profesional independiente y debidamente cualificado siempre le resultará beneficiosa.

Pi DIRECTOR AV, aplica lo más estrictamente posible las Normas GIPS (Global Investment Performance Standards), elaborados por el CFA Institute, divulgados por la Asociación Española de Presentación de Resultados de Gestión.

Las carteras CS QUANT, son fondos de fondos (FoFs), tal como viene reflejado en el folleto oficial aprobado por la CNMV y cumplen con la Directiva 2009/65/CE, es decir son fondos UCITS que ofrecen el máximo grado de protección a los inversores y, por supuesto, cumplen todas las reglas de diversificación exigidas por la normativa vigente principalmente:

- Que los fondos de inversión (FI) en cartera no superan el 20% del patrimonio.
- Que los activos directos no superen el 10% del patrimonio.
- Que los activos directos que superen el 5% del patrimonio no sumen más del 40% del patrimonio.
- Minimizan al máximo posible la cadena de costes.

La combinación de cuatro fondos en una cartera CS QUANT aporta un nivel de diversificación suficiente para cualquier inversor, personalizando sus proporciones en función del perfil del inversor

Entendemos que la diversificación, si bien no elimina completamente todas las dimensiones del riesgo (e.g. riesgo de crédito, de liquidez, de mercado, etc.), sí que las mitiga sin incurrir necesariamente en costes adicionales. Es importante destacar también que la diversificación, en cuanto medida para reducir o mitigar riesgos, puede a su vez reducir la rentabilidad esperada.

Sin embargo las Entidades de Servicios de Inversión, generalmente Bancos, en su legítimo interés comercial tienden a proponer sus servicios al 100% del patrimonio de sus clientes, en clara contradicción de la defensa de la diversificación, que siendo exigentes debería ser motivo, en sí mismo, para una declaración de conflicto de interés.

Por otro lado, los inversores tienden a considerar diversificación a la tenencia de cuentas en diferentes bancos. Si las diferentes cuentas tienen una estrategia de inversión similar, el grado de diversificación será muy bajo, incluso pudiendo superar, con las duplicidades, los máximos límites de concentración normativos.

Sugerimos la posibilidad de tener en un mismo banco diferentes cuentas, con diferentes estilos de gestión, con la mayor descorrelación posible.

En las carteras CS QUANT se trata de diversificar el máximo posible en muy diferentes estrategias, aunque unidas por el criterio cuantitativo de la preservación de capital. Esto origina mucha gestión de datos, y en los últimos años especialmente por el escenario cambiante que se está produciendo en el corto plazo, por lo que el efecto colateral de la gestión del riesgo y la defensa del patrimonio es el incremento, más de lo previsto, del coste operacional.

Si tratando estas carteras como producto único, alguno de sus 4 fondos que la componen supera el 30% de su patrimonio o si el conjunto de los cuatro supera el 50% del mismo será conveniente ponerse en contacto con su asesor para:

- 1.- Aceptar la concentración y ser consciente de que no desea realizar ningún cambio
- 2.- Desear reducir la concentración y diversificar más su cartera que la descrita en estos informes mensuales

Quedamos a su disposición para ampliar información en relación a la metodología empleada para el asesoramiento de dichos fondos.
